Quantity	Identification Number	Description Of Item	Maximum Safe Working Load(s)	Date of Manufacture (if known)	Date of Thorough Examination	Latest Date By Which the Next Thorough Examination Should Be Carried Out
8 PC	96322-1/1/(1-8)	02K0170 6.5mm 18x7 FC 2050 U RHO MBL:2.68t L=17250mm 17250mm PIN CENTRE - PIN CENTRE EE571 EYE END EACH END		26/08/15	26/08/15	20/08/16

This equipment was supplied new.

The examination was carried out before this equipment was put into service for the first time.

No part was found to have any defect that is, or could become a danger to persons. As such, no repairs, renewals or alterations have been carried out.

Any testing, of this equipment has been carried out by the equipment manufacturer in accordance with the appropriate standard CERTEX UK STANDARD. No tests were carried out as part of this thorough examination procedure.

Any Maximum Safe Working Load given for plain ended steel wire ropes is based on a coefficient of utilisation/factor of safety of 5*

* For plain ended steel wire ropes and steel wire ropes assemblies, other than slings, it is the responsibility of the manufacturer or designer of the installation, equipment or appliance to establish the correct coefficient of utilisation, safety factor, factor of safety or design factor. If the rope is to be used at a different coefficient of utilisation to that shown above, it should be re-rated by a competent person.

THIS EQUIPMENT IS SAFE TO OPERATE
